BEEF

Snake River Farms

This family-owned and operated business was founded 56 years ago, working with family ranches on the high plains of Idaho. The family manages the production process from start to finish and are the largest producer of American Wagyu beef in North America.

Double R Ranch

Consisting of a network of ranches in the Pacific Northwest. The Double R signature ranch program was the first in the country as upper one-third choice, additional Double R USDA representing only the top end of the marbling scale.

Kagoshima A5 Wagyu

Kagoshima currently boasts the highest quality and greatest output of black cattle production in Japan. A strict commitment to taste and safety defines the raising of Kagoshima Wagyu with delicate and finely textured marbling.

PORK

Salmon Creek Farms

Salmon Creek Farms has a unique "value chain" creating a sustainable model that engages family farms, a single processor, and select distributors in a transparent USDA Process Verified and 100% traceable product. The product is also California Prop-12 compliant.

Montaraz Iberico

With a rich history of over 150 years Montaraz continues the tradition of Iberico ham. Offering an unmatched experience to discerning palates around the world and have two USDA-approved natural drying locations in Salamanca and Extremadura, Spain. Uncured cuts available!
